Introduction

EduConsultPro is designed to streamline the management of educational consultations. This guide walks you through setting up the application in Salesforce, creating necessary objects, relationships, and flows, and configuring user settings and approval processes. Following these steps

Name: Mohan Shridhar

Roll No. : 0905IT211087

College : Institute of technology and management, Gwalior

Email: dabra.mohan@gmail.com

will help ensure the application meets organizational needs effectively.

Create Objects from Spreadsheet

Directly Creating Objects from Spreadsheet in Salesforce

step-1 Create Course object

Go to your object manager and and click on create object from spreadsheet

Click on the link to get the spreadsheet, Course.

After downloading, upload the file, map the fields and upload to create an object.

step-2 Create Remaining objects

Follow the steps which we have followed for course object creation.

Use the following sheets for remaining objects.

Consultant

Student

Appointment

step-3 Create Relationship among the objects

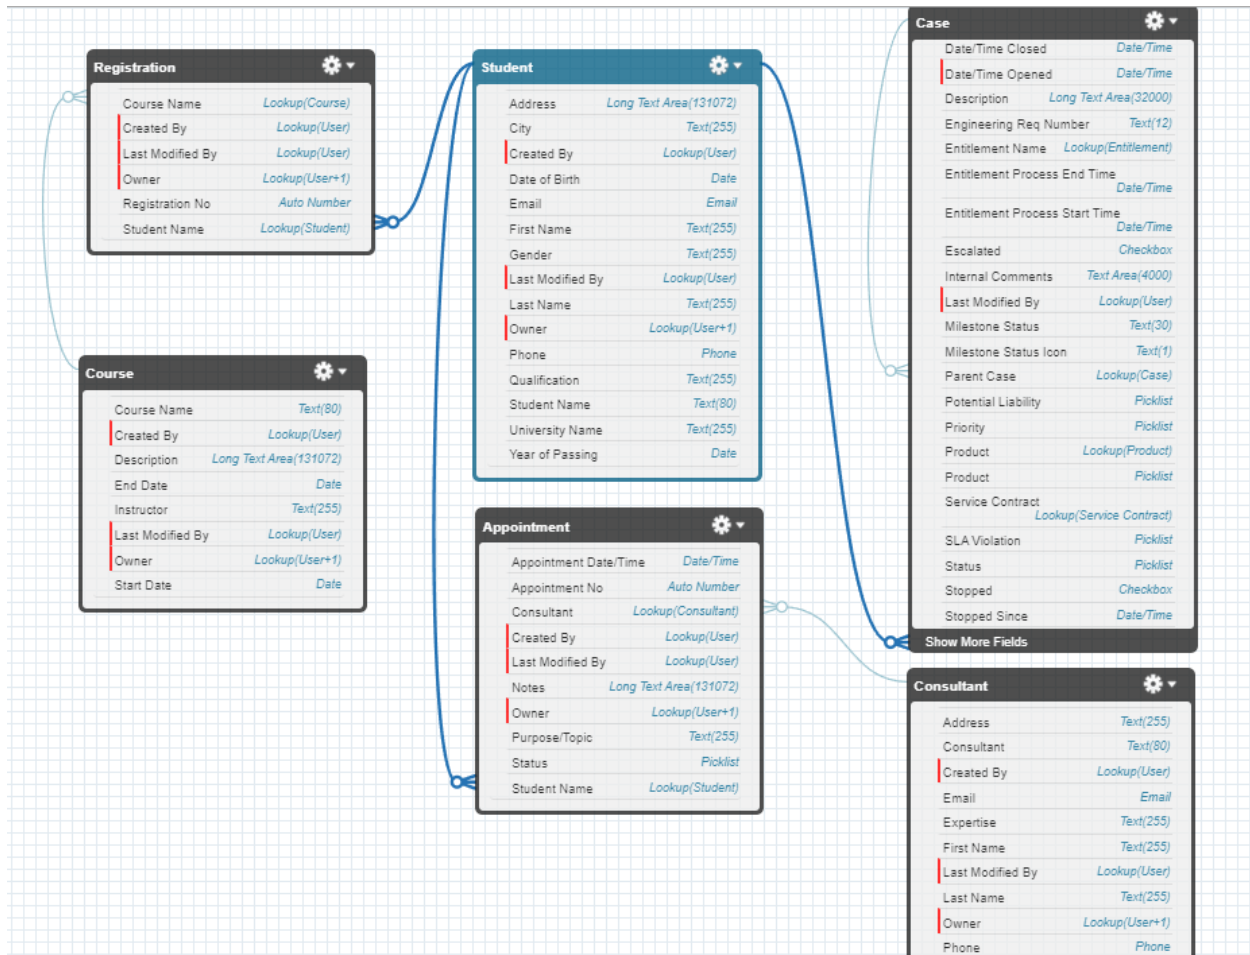

1. Create lookup between appointment and student, appointment and consultant.

2.Create an object to store the information student and course details with the name Registration.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

3. Also create a lookup between student and case to store the student queries for immigration or visa application.

4. The data model should be similar to the below Data Model with fields & relationships:

Create tabs for the respective object.

step-4 Configure the Case Object

1. Go to object manager, edit case object.

2. Select the "Type" field and add the values in it.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

Immigration
Visa Application

3. Now Select the "Status" field and add the values in it.

Open

In-progress

step-5 Create a Lightning App

1.Go to Setup, search for the App Manager in quick find

2.Click on New Lightning App

3.Give app name as "EduConsultPro", click Next, Next, Next

4.Add Home, Students, Courses, Consultants, Appointments, Registrations, and Cases from the Available Items to Selected Items.

5.Add "System Administrator" profile from Available Profiles to Selected Profiles, click Save & Finish.

Create a ScreenFlow for Student Admission Application process.

step-1 Add Screen Element

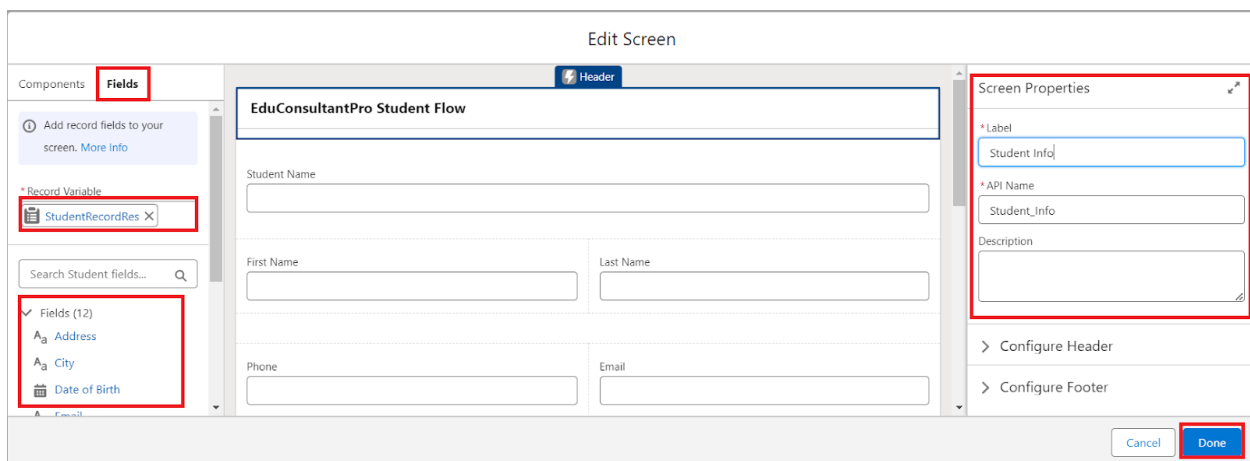

1.From Setup, enter Flow Builder in quick find, select new flow --> ScreenFlow.

2.Add a Screen element.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

3. In the Screen Properties pane, for Label, enter "Student Info".

4. Click on Fields, click on the record variable input and create a new Resource(StudentRecordRes) to display all the fields which are in the student object. Drag all the fields which are needed to add on the screen in order to collect the student information.

step-2 Create Student Record using Create Element

1. Add a Create element after Student Info Screen Element, Label it as "Create Student Record."

2. Select "one" under How many records to Create, and select "use all values from a record" under How to Set the record fields.

3. Select the record variable resource(StudentRecordRes) which we have created in the Student Info screen element, under Create a record from these values.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

New Create Records

* Label

Create Student Record

* API Name

Create_Student_Record

☒ Use all values from a record

☐ Use separate resources, and literal values

Create a Record from These Values

* Record

 StudentRecordRes

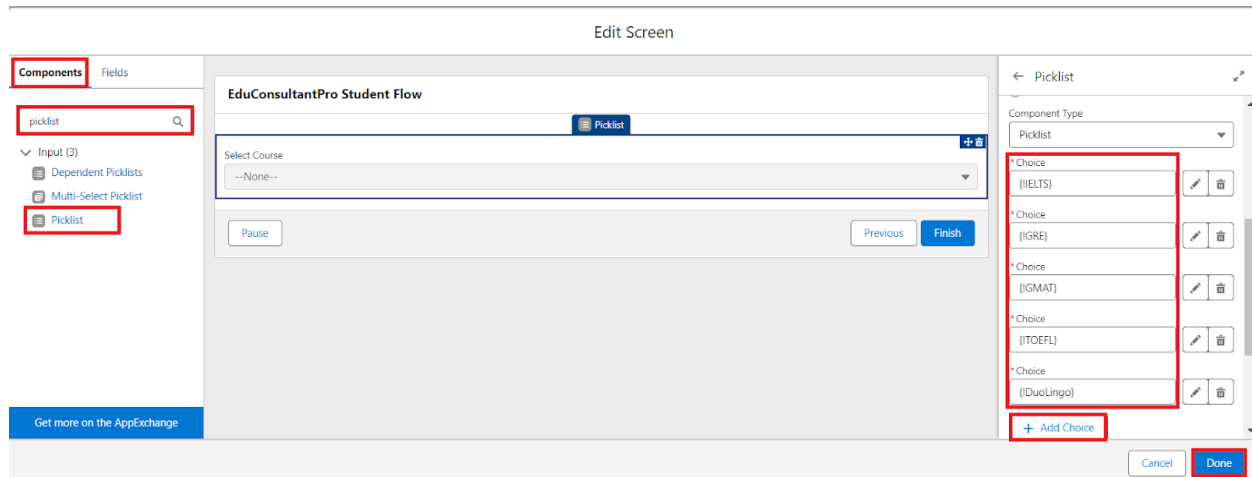

×

Make sure that ID is blank. After the flow creates the records, ID is set to match the record that was created.

step-3 Add Screen Element

- 1.Add a Screen Element after Create Student Record Element and label it as Course Screen.
- 2.Add a picklist component from the left side panel label it as "Select Course", under choices type "IELTS" and enter. This creates a variable with the name IELTS.
- 3.Repeat the same for GRE, GMAT, Duolingo, TOEFL.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

step-4 Add Decision Element

1.Add a Decision Element after Select Course Screen Element, label it as Selecting Course.

2.Under outcome label it as "Selected IELTS" and write the condition such as below:

Resource : Select_Course (Screen Component from Select Course Screen Element)

Operator : Equals

Value : IELTS (Choice Variable from Select Course Screen Element)

3.Click on the "+" icon and Repeat step 2 for other options mentioned as below:

GRE

GMAT

DuoLingo

TOEFL

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com
4.Click Done.

 Edit Decision
Selecting Course (*Selecting_Course*)

4.Repeat the steps 1 & 2 for the GRE, GMAT, TOEFL, DuoLingo paths.

step-7 Create Email Text Template Variables for email body and subject

1.Click on the toggle toolbox on the left corner, click “New Resource”, then select “Text Template” as Resource Type.

2.Give the API name as “StuRegistrationEmailTextTempBody”, select “view as plain text” and paste the below text in body.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com
"Dear {!StudentRecordRes.Name},

Congratulations and welcome to EduConsultantPro!

We are delighted to inform you that your registration on our platform has been successfully completed. You are now part of our esteemed community dedicated to empowering students like you to achieve their educational and immigration aspirations.

At EduConsultantPro, we understand the importance of your academic and career goals, and we are committed to providing you with the highest level of support and guidance throughout your journey.

Here are a few key points to help you get started:

Explore Our Resources : Take some time to explore the wide range of resources, tools, and services available on the EduConsultantPro platform. From educational insights to immigration advice, we offer comprehensive support tailored to your needs.

Connect with Our Consultants : Our team of experienced consultants is here to assist you at every stage of your educational and immigration endeavors. Don't hesitate to reach out to us with any questions, concerns, or inquiries you may have. We're here to help!

Stay Updated : Keep an eye on your inbox for important updates, announcements, and exclusive opportunities from EduConsultantPro. We'll ensure that you're informed about the latest developments and relevant information to support your journey.

Engage with the Community : Join our vibrant community of students, professionals, and experts who share your passion for education and global opportunities. Connect with like-minded individuals, participate in discussions, and expand your network.

Once again, congratulations on taking this important step towards realizing your academic and career aspirations. We are thrilled to have you as part of the EduConsultantPro family and look forward to supporting you on your journey to

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com
success.

If you have any questions or need assistance, please don't hesitate to contact us.

Thank you.”

3.Click Done.

The screenshot shows a web-based 'Edit Text Template' interface. At the top, the title 'Edit Text Template' is centered. Below it, there are three main sections: 1. 'API Name' with a text input field containing 'StuRegistrationEmailTextTempBody'. 2. 'Description' with a larger text area that is currently empty. 3. 'Body' section, which includes a 'Resource Picker' search bar with the placeholder 'Insert a resource...', a 'View as Plain Text' dropdown menu, and a large text area containing the email body content. The email body text is as follows: 'Dear {!StudentRecordRes.Name},', 'Congratulations and welcome to {!EduConsultantPro}!', 'We are delighted to inform you that your registration on our platform has been successfully completed. You are now part of our esteemed community dedicated to empowering students like you to achieve their educational and immigration aspirations.', 'At {!EduConsultantPro}, we understand the importance of your academic and career goals, and we are committed to providing you with the highest level of support and guidance throughout your journey.', and 'Here are a few key points to help you get started:'. At the bottom right of the dialog, there are two buttons: 'Cancel' and 'Done'.

4.Repeat steps 1 & 2 to create an email text template for the email subject, label it as “StuRegistrationEmailTextTempSub”, write a text message in the body and save it.

step-8 Add an Action Element

Roll No. : 0905IT211087

College : Institute of technology and management, Gwalior

Email: dabra.mohan@gmail.com

- 1.Add an Action Element after all the Decision paths, label it as “Send Email to Student”.
- 2.Under “Set input values for selected action”, include body, Recipient Address List and Subject.
- 3.For input Body : {!StuRegistrationEmailTextTempBody},
Recipient Address List : {!StudentRecordRes.Email__c},
Subject : {!StuRegistrationEmailTextTempSub}.

Edit Send Email

step-9 Add Screen Element

1. Add a Screen Element after the Send Email to Student Action Element, label it as Success Screen.
2. From the left side panel search for the Display text component and drag it to the main

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com
panel, label it as "SuccessMessage".

3.Paste the below in the Resource picker box.

"Dear {!StudentRecordRes.Name},

Congratulations and welcome to EduConsultantPro!

We are delighted to inform you that your registration on our platform has been successfully completed. You are now part of our esteemed community dedicated to empowering students like you to achieve their educational and immigration aspirations.

Your Registration details have been sent through mail kindly check it once.

Thank you."

4.Click Done.

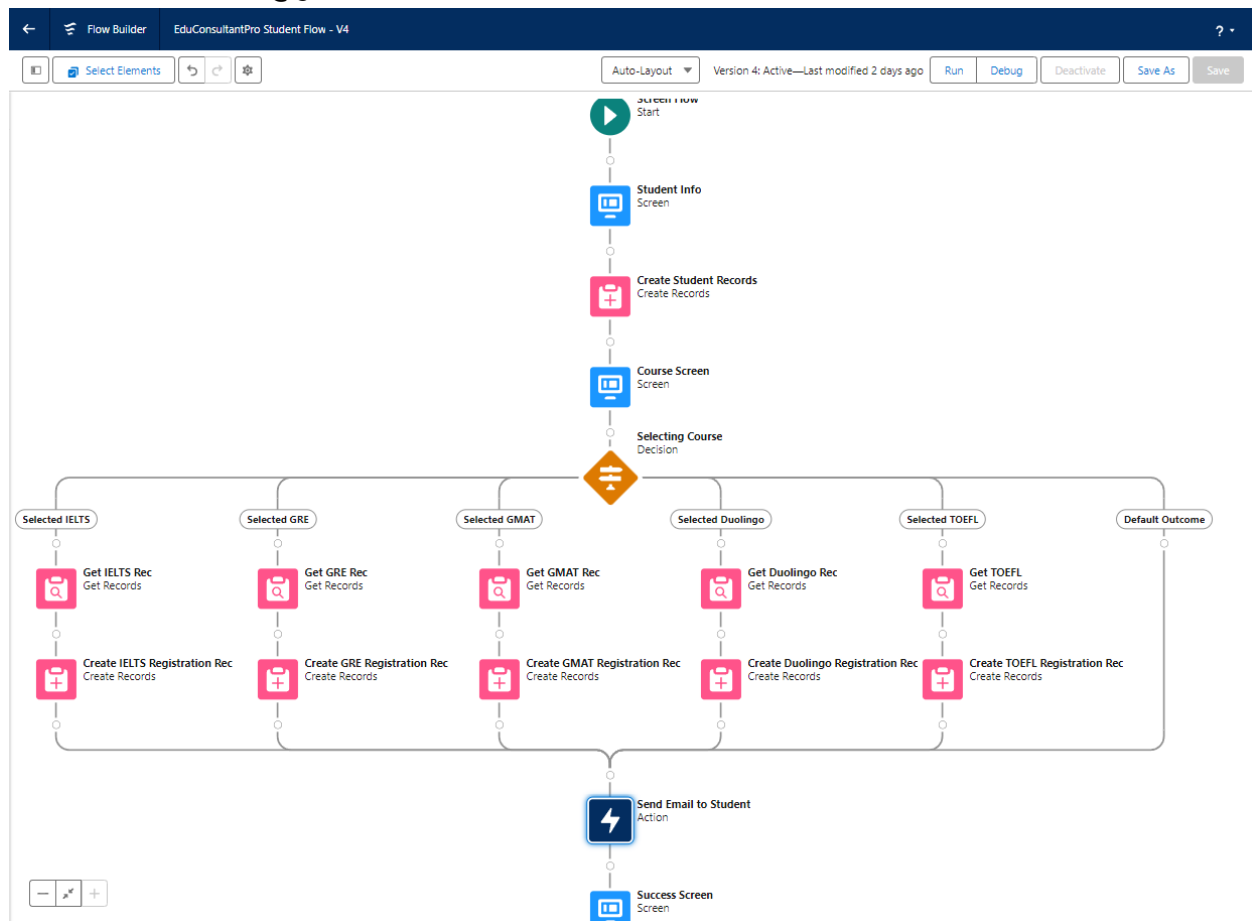

5.Save the flow and name it as "EduConsultPro Student Flow". Your flow will look as shown below:

Name: Mohan Shridhar

Roll No. : 0905IT211087

College : Institute of technology and management, Gwalior

Email: dabra.mohan@gmail.com

Create Users

Create a user with a Standard platform user profile.

step-1 User

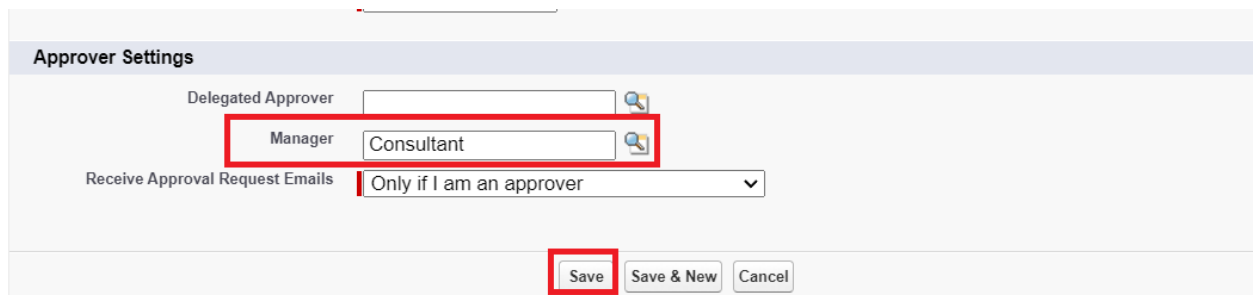

- 1.Go to Setup --> Administration --> Users --> New User
- 2.LastName : Consultant
- 3.License : Salesforce Platform
- 4.Profile : Standard Platform User
- 5.Fill all the mandatory fields & Save.

step-2 Configure the User Settings

- 1.Go to Setup --> Administration --> Users --> click Edit next to your name
- 2.Scroll down to bottom, under Approver Settings, Select "Consultant" the Manager Field.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

3. Click Save.

Receive Approval Request Emails

Save **Save & New** **Cancel**

Create an Approval Process for Property Object

step-1 Create an Email Template

1. From Setup, enter Templates in the Quick Find box, and then select Lightning Email Templates, toggle on.

2. go to app launcher, search for "Email Templates", Create a new folder with the desired name.

3. Then create a new email template, select the folder which we have created in the previous steps, enter the below text in the HTML Value and Save it as "Submission Template".

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

"Dear {{{Appointment__c.Student_Name__c}}},

I hope this email finds you well. I am writing to confirm the details of our upcoming appointment scheduled for {{{Appointment__c.Appointment_DateTime__c}}} regarding {{{Appointment__c.PurposeTopic__c}}}.

Appointment Details:

Appointment No : {{{Appointment__c.Name}}},
Student Name : {{{Appointment__c.Student_Name__c}}},
Consultant Name : {{{Appointment__c.Consultant__c}}},
Date & Time : {{{Appointment__c.Appointment_DateTime__c}}},
Purpose : {{{Appointment__c.PurposeTopic__c}}}

I want to assure you that I am looking forward to our meeting and am fully prepared to address any questions or concerns you may have regarding {{{Appointment__c.PurposeTopic__c}}}. Your success and satisfaction are my top priorities, and I am committed to providing you with the guidance and support you need.

If you have any specific topics or questions you would like to discuss during our appointment, please feel free to share them with me in advance. This will help ensure that our time together is as productive and beneficial as possible.

If for any reason you need to reschedule or cancel our appointment, please notify me at your earliest convenience so that we can make alternative arrangements.

Once again, thank you for choosing to work with me on this matter. I am confident that our collaboration will lead to positive outcomes and progress toward your goals.

If you have any questions or require further information before our scheduled appointment, please don't hesitate to reach out to me.

Looking forward to our meeting.

Best regards,

{{{Recipient.Name}}},

4. Create two more Email templates for Approval and Rejection of Request similar to the previous one.

step-2 Create an Approval Process

- 1.From Setup, enter Approval in the Quick Find box, and then select Approval Processes.
- 2.In Manage Approval Processes For, select Appointment.
- 3.Click Create New Approval Process --> Use Jump Start Wizard.
- 4.Configure the approval process.

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

5.Process Name - Appointment Approval, Under Select Approver, Select Manager for the option : “Automatically assign an approver using a standard or custom hierarchy field.”

Show More'. At the bottom right are 'Save' and 'Cancel' buttons. Red boxes highlight the 'Select Approver' title, the 'Manager' dropdown, and the 'Save' button."/>

Select Approver

Using the options below, specify the user to whom the approval request should be assigned.

☐ Let the submitter choose the approver manually.

☒ Automatically assign an approver using a standard or custom hierarchy field: **Manager**

☐ Automatically assign to queue.

☐ Automatically assign to approver(s).

Because this is the Jump Start Wizard, Salesforce automatically chooses some settings for you. [Show More](#)

Save Cancel

6.Click next and “Next Automated Approver Determined By” --> Select Manager.

7.From Record Editability Properties --> Click on Administrators OR the currently assigned approver can edit records during the approval process.

8.Save the approval process.

9.Click View Approval Process Detail Page.

10.Under Initial Submission Actions, click Add New --> Field Update, and configure it with these values.

Field	Value
Name	Submitted
Field to Update	Appointment: Status
A Specific value	Pending

Initial Submission Actions

Add Existing Add New

Action	Type	Description
Record Lock		Lock the record

Task
Email Alert
Field Update

11.click Add New --> Email Alert, and configure it with these values.

Description : Submission Email Alert

Unique Name : Auto Populates

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com
Email Template : Submission Template
Recipient Type : Select your Name

12.Repeat the Steps 10 - 11 for Final Approval and Final Rejection actions.

Create a Record Triggered Flow

step-1 Configure the Start Element

- 1.From Setup, enter Flows in the Quick Find box, then select Flows.
- 2.Click New Flow.
- 3.Select Record-Triggered Flow.
- 4.Click Create. The Configure Start window opens.
- 5.For Object, select Appointment.
- 6.For Trigger the Flow When, select A record is created. The flow will look like this:

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

Select Object

Select the object whose records trigger the flow when they're created, updated, or deleted.

* Object

Appointment

Configure Trigger

* Trigger the Flow When:

☒ A record is created

☐ A record is updated

☐ A record is created or updated

☐ A record is deleted

Set Entry Conditions

Specify entry conditions to reduce the number of records that trigger the flow and the number of times the flow is executed. Minimizing unnecessary flow executions helps to conserve your org's resources.

If you create a flow that's triggered when a record is updated, we recommend first defining entry conditions. Then select the **Only when a record is updated to meet the condition requirements** option for When to Run the Flow for Updated Records.

Condition Requirements

None

* Optimize the Flow for:

Fast Field Updates

Update fields on the record that triggers the flow to run. This high-performance flow runs *before* the record is saved to the database.

Actions and Related Records

Update any record and perform actions, like send an email. This more flexible flow runs *after* the record is saved to the database.

☐ Include a Run Asynchronously path to access an external system after the original transaction for the triggering record is successfully committed

step-2 Add an Action Element

1.Add an Action element after the Start Element and Select the Submit for approval action, label it as "Approval SubFlow".

2.Set the RecordId to "{!\$Record.Id}".

Name: Mohan Shridhar Roll No. : 0905IT211087
College : Institute of technology and management, Gwalior
Email: dabra.mohan@gmail.com

 Edit Submit for Approval
approval subflow (*approval_subflow*)

* Label

approval_subflow
